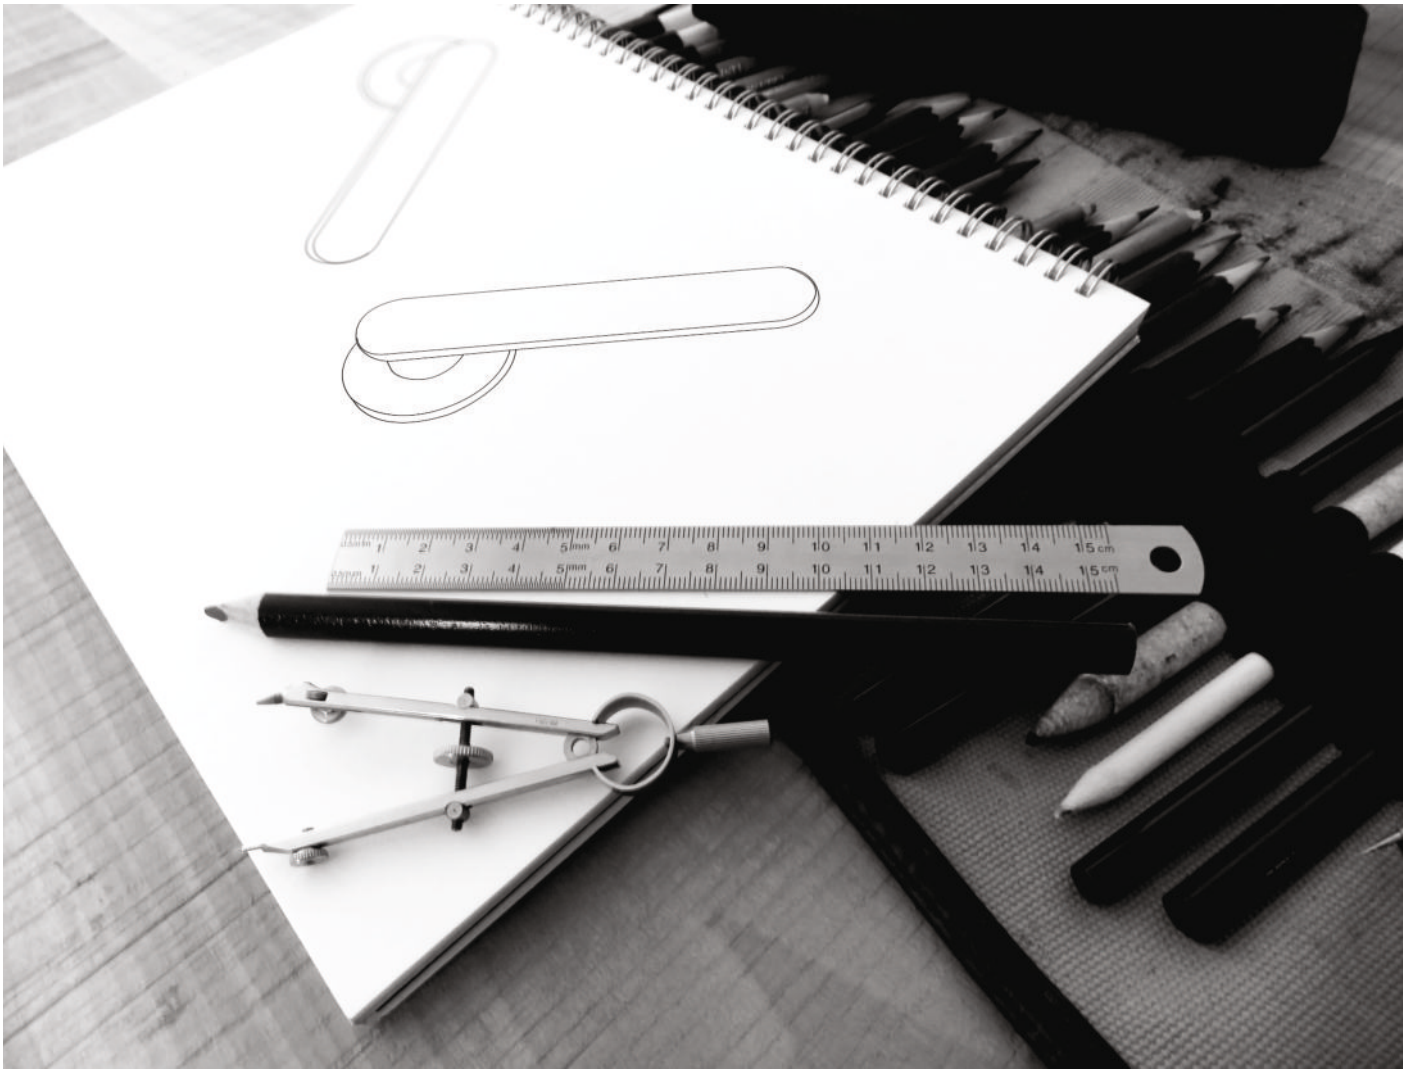
100% FULL BRASS

Presence Accross 17+ Countries

Crafted From IS 319:2007 GRADE 1 Pure Brass Material

ISI Certified Quality Standard



DEVELOPING DESIGN

Developing and creating new designs has always been a tedious task, no matter the industry. It take immense strength and will to never up on your dreams. It is our immense passion and arduous hard work that keeps us moving and achieving our dreams for a better space. To be able to generate designs that meet the standards of both elegance and functionality is our end goal.

THE MECHANISM OF DESIGN

Design is a process that is a fusion of ideas coming from several minds and comes to life as a result after undergoing path breaking creativity and procedures. Designing comes to us in five different stages as stated popularly empathizing, defining, ideating, prototyping, and testing. We understand the need of our customers and then come up with a design that fulfils all the criteria and ticks all the check boxes. It is not up filling up a space, but more about creating an impact.

TO YOUR ADORABLE LIVING

NEW IDEAS

PRODUCTION AND R&D.

OUR COMPANY HAS AS MAIN ACTIVITY THE PRODUCTION OF HARDWARE FOR FURNITURE AND BUILDING CONSTRUCTION. IN RECENT YEARS WE HAVE DEVOTED SPECIAL ATTENTION IN DEVELOPING HARDWARE THAT ADDRESS THE TRENDS OF CONTEMPORARY ARCHITECTURE.

We created a number of sectors of which we highlight the research and product development (R & D) has received numerous design awards in prominent magazines of the sector of decoration and architecture, both national and international.

Another important company sector is the commercial, establishing partnerships with other brands in the sector, giving us a great breadth and range of products that complement our production division.
